SUMMARY

Detail-oriented web developer with expertise in HTML, CSS, and JavaScript frameworks. Proven ability to design and deploy user-friendly websites, ensuring client satisfaction through effective communication and collaboration.

EXPERIENCE

Personal Shopper, Harris Teeter

Nov. 2023 - Present

- Resolve software errors to ensure timely order fulfillment and seamless operational flow.
- Consistently ranking in the top 3 for pick accuracy and lowest order completion time.
- Collaborate with team members to ensure a seamless user experience and customer satisfaction.

Web Designer/Developer, Kweens Trucking LLC

March 2025 - April 2025

- Developed and launched the company website based on client specifications.
- Engineered a custom site with front-end code, utilizing JavaScript for interactivity and animations to add features beyond the native platform.
- Collaborated closely with the client throughout the development process to ensure project alignment.

Web Developer, Second Run Logistics LLC

Aug. 2023 - Sept. 2025

- Spearheaded the end-to-end development and successful launch of the company website, managing the project from initial concept to deployment.
- Collaborated closely with the owner to implement a user-centric design, ensuring a functional and intuitive user experience.

Self-Checkout Cashier / Personal Shopper, Harris Teeter

Aug. 2024 - Dec. 2024

- Oversaw the operation of 12 self-checkout stations, ensuring optimal performance and user flow.
 - Enhanced departmental productivity by decreasing customer wait times by over two minutes, a key factor in improving store performance metrics.
 - Collaborated cross-functionally to support overall operational efficiency.
-
